Data Sheet

Dually BTE

Earscopes Dually were designed to serve a dual purpose for you. State of the Art Digital Hearing Aids during the week and when you go to the range or hunting, the finest Electronic Hearing Protectors available. There are 2 Dually's available, The Dually and The Mini Dually. The dually is a 2 channel digital sound processing circuit and the mini is a 4 channel digital circuit. The Dually can be custom programmed by a Hearing Health Care Professional to accommodate your specific hearing loss. This feature allows you to hear more clearly than you can imagine! In shooting mode the Dually shuts down electronically and protects your hearing from gunfire. Both Earscopes Dually offers a volume control and a 3 memory situation switch.. Custom Hearing Protection molds are included in the Dually price.
